IMPORTANT INFORMATION ON AUTOMATED TRASH COLLECTION

Additional Carts & Barcoding

Hudson Residents will receive one cart free as part of the new automated collection program. A second cart may be purchased if necessary. We would encourage residents to remove all the recyclable items out of your regular trash, before purchasing a second container. This will reduce the volume in your trash disposal dramatically. The recyclables you remove save the Town of Hudson a substantial amount of money. If you feel you need a second cart, the one time cost to the resident is \$75.00. Credit card or check are acceptable forms of payment. Checks must be made out to Pinard Waste Systems.

Note: All carts are **bar-coded** to the residential address to which the cart is placed. When purchasing a second collection cart you will notice that it is a different color than the free cart provided by the Town of Hudson. This cart is also bar coded to the residents in which it is delivered. No residential address may have two free cart colors. If this happens the cart will be scanned and return to the correct address.

Missing or Damaged Carts

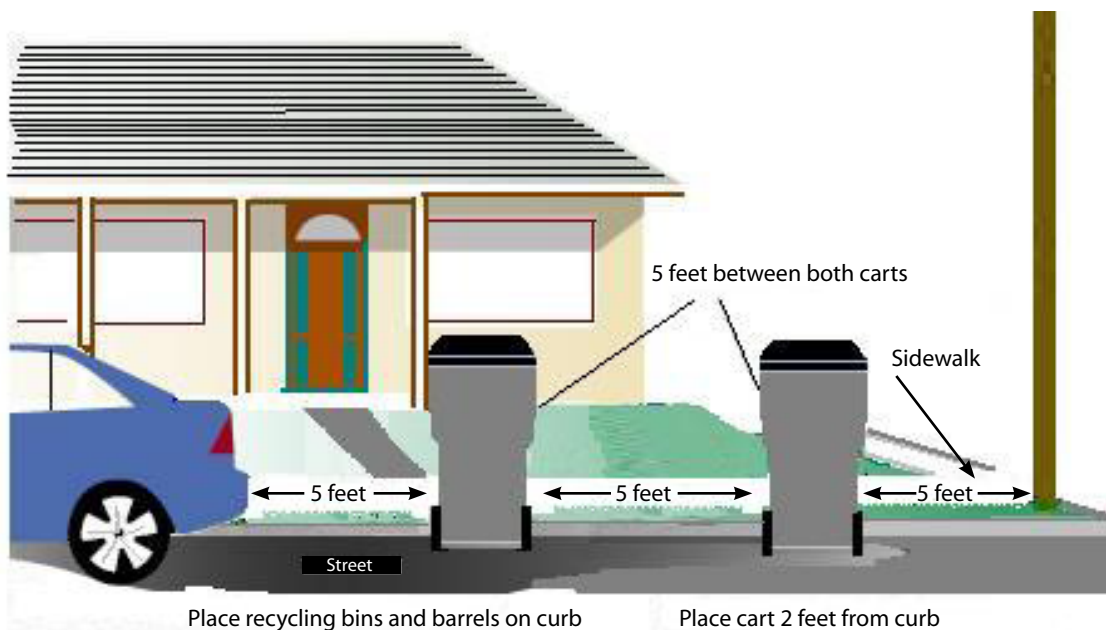

If for some reason the cart is destroyed, a new cart will be provided free of charge upon the return of the damaged cart. Missing carts will be replaced upon notification to Pinard Waste Systems. Damaged carts will be repaired at no cost to the resident. Call Pinard Waste Systems at 1-800-675-7933. Please detail the nature of the needed repair. (Lid, wheel, etc.)

Guidelines for Automated Trash Collection

On July 1, 2007, the Town of Hudson, NH will start automated curbside collection for trash. Residents that receive a wheeled container should follow the simple guidelines specifically designed for automated collection.

Please read this resident user guide completely. It contains important program information

- All trash should be in a plastic bag and then placed in the automated collection cart issued by the Town of Hudson.
- Trash left beside the cart or in other containers will not be collected.
- Collection cart lids should be closed.
- Collection carts must be set in an accessible location: At least 5 feet from any obstruction such as trees, telephone poles, cars and mailboxes, within 2 feet of the curb and away from low hanging utilities.
- Carts that are inaccessible will not be serviced until the following week.
- The cart must be placed so that the handle faces the curb.
- All carts must be at the curb by **7:00 AM** on your trash day.
- No hazardous or building materials, yard waste, brush, recyclables or corrugated cardboard should be placed in your cart.
- Recycling bins and barrels should be placed on the curb as to not interfere with the automated collection process. Please have recyclables out at the curb by **7:00 AM** of your collection day.
